

ANNOUNCEMENT

August 24, 2012

Dear friends,

As it is well known, in 1959, the **J.P. Cedarholm – C.H. Townes experiment** was performed.

This experiment, which was conducted with an experimental device **at rest relative to the surface of the Earth**, proved that the Ether does not exist in nature and, therefore, the Theory of Relativity is correct.

However, a critical point which every physicist has (unfortunately) missed up to this day is the following:

The very same experiment, if performed on a **moving vehicle relative to the Earth's surface**, (e.g. automobile, train, aircraft, etc), will instantly demonstrate that **the Ether exists in nature and consequently the Special and General Theory of Relativity are totally false**.

I have **particularly stressed the significance** of this matter (that **it is necessary** to perform the Cedarholm – Townes experiment on a moving vehicle, as well) and communicated it many universities.

However, all these academic establishments chose to ignore this important observation (and never gave it any serious consideration), as a result of which, the above experiment **has not been conducted on a moving vehicle to this day (2012)**.

Therefore, after the indifference shown by the academic community, and because it is **scientifically important** to perform the Cedarholm – Townes experiment using a moving vehicle, **I decided to conduct it myself**.

At this point, I would like to emphasize that this experiment is a **modern “Michelson – Morley” physics experiment and one of the most important ones in all times**, as physicists are well aware of.

Nevertheless, due to the fact that I lack the financial resources to perform it on my own, I kindly ask **for the discretionary contribution** of anyone (scientists, institutes, corporations) who is willing to help me purchase a maser device, etc, so that I can perform together with my associates the Cedarholm – Townes experiment on a moving vehicle (automobile, train, aircraft)

Furthermore, I would like to assure you that if the Cedarholm – Townes experiment (1959) is conducted on a moving vehicle (automobile, train, aircraft), then it will be **definitively and irrevocably** proven that the Ether truly exists in nature, and therefore, the Theory of Relativity is utterly erroneous (For more detailed information, *See* Ether, Ethersphere, etc, on www.tsolkas.gr).

Dear friends,

If you believe that this is a project worth contributing to, you may make your contribution (**any amount you wish**) to my personal bank account given here below:

Christos A. Tsolkas
Alpha Bank (Greece)
Account No: 275-002101-150770
IBAN : GR12 0140 2750 2750 0210 1150 770

Thank you very much,
Christos A. Tsolkas

P.S.: 1) Contributors' names and contribution amounts will be displayed online, on www.tsolkas.gr.

NOTE:

Dear friends,

In conclusion, I would like to let you know that:

In the event that, after the date of this announcement (August 24, 2012), any academic institution publishes first, in an acclaimed scientific journal, the results of the Cedarholm – Townes experiment performed on a moving vehicle, a notice will be posted on www.tsolkas.gr for **immediate discontinuation of contribution**.

Moreover, any money that may have been raised up thanks to your contribution will be given to the academic institution which performed this significant physics experiment and published its results (**to the benefit of its Scientific Staff**).

Conclusion

It is essential to conduct the J.P. Cedarholm – C.H. Townes experiment (1959) on a moving vehicle relative to the Earth's surface in order to establish whether the Theory of Relativity is accurate or not.

Otherwise, we will never be able to say with certainty that the Theory of relativity is true, no matter how many experiments are performed and verified.

Consequently, if the J.P. Cedarholm - C.H.Townes experiment (1959) is performed (using an experimental device that is in motion relative to the surface of the Earth) and it yields a POSITIVE result, then the Theory of Relativity (Special and General) is 100% FALSE!!!!

Thank you.
